

Kenenna Anyaegbunam

Product Leadership · Design Systems · Product Operations · Web products · Brand
akenenna@gmail.com · hellokene.com · +2348160604830

Product designer with 5+ years designing fintech, B2B SaaS, and web products alongside high-performing teams. I build product and design systems that improve business outcomes, increase adoption, and help teams ship better work faster.

Experience

Tradevu

Head Of Product & Design

Jul 2024 – Present | Remote, Lagos

- Redesigned and shipped a consolidated ‘Send Money’ flow for local and FX transfers, improving completion rates, reducing support load, and increasing monthly volume.
- Introduced a delivery framework in Jira, improving sprint predictability to 90%+ month-on-month.
- Defined Tradevu Flex product vision (purchase orders, shipments, invoices), aligning Engineering, Ops, and Leadership from research to prototyping to live deployment.
- Improved design systems and developer handoffs for more consistent product delivery.

African Technopreneurs

Lead Product Designer

Nov 2023 – Jan 2025 | Remote, South Africa

- Led redesign of web experiences, improving UX and contributing to ~15% monthly conversion growth.
- Led creative execution for Insta360 and Takealot campaigns, delivering co-branded assets for cross-team promotions.
- Introduced reusable Figma components and file governance for distributed product teams.

Pivo (YC ‘22)

Design Lead (prev. brand & product designer)

Oct 2021 – Nov 2023 | Hybrid, Lagos

- Led product design using research and analytics to improve onboarding and customer experience.
- Improved onboarding completion and product adoption, contributing to growth that secured \$2M funding and YC W22.
- Built original brand & design system, ensuring consistency across social, web and mobile platforms.

Color Me

Brand & Product Designer

Designed websites, digital products, and brand systems across fintech, e-commerce, and consumer technology.

Jan 2020 – Jan 2023 | Remote, Lagos
